

THE RIGHT CHOICE FOR YOUR DOG

PRO - NATURE - LINE

Balanced nutritional concept - for the special demands of successful breeders. With high quality protein sources we developed balanced recipes for the extraordinary requirements of pedigree dogs.

CLASSIC - NATURE - LINE

Our comprehensive nutritional concept (life cycle) for dogs of all breeds. The high quality, wheat free recipes meet the special requirements of your dog in each lifestage and are adapted to his individual activity.

HOLISTIC - NATURE - LINE

The grainfree nutritional concept for sophisticated, feed sensitive dogs of all breeds. Valuable additives like our mobility complex and silky coat complex support the optimal nutrition of your dog.

CHICOPEE - ORIGINAL CANADIAN RECIPE

The well-being and fitness of your dog is at the core of what we do. We are always keen to only use high quality ingredients which are regionally produced wherever possible.

State-of-the-art production and packaging systems enable us to refine the scientifically-based recipes with a wide range of ingredients so that they are easy to digest and appealing to your dog.

Our claim to permanent top quality is backed up by comprehensive quality controls (IFS).

The IFS (International Food Standard) certification clarifies that our manufacture in Germany produces according to food standards.

CHICOPEE
Original Canadian Recipe

SPECIAL FEATURES

WITHOUT WHEAT (PUPPY LAMB & RICE)

By not using wheat but alternative, high-quality sources of carbohydrate instead, the feed ensures optimum and gentle digestion.

NATURAL CELL PROTECTION

Important natural anti-oxidants, such as vitamin E and the trace element selenium, protect the body cells from harmful attacks by metabolic waste products.

OPTIMIZED ENERGY LEVEL

The increased content of easy to digest proteins and high quality fats supports the optimal development of your puppy.

BALANCED SOURCE OF NUTRIENTS

The balanced supply of nutrients in the feed means that less feed is needed and therefore takes the strain off the gastro-intestinal tract.

DENTAL AND ORAL HYGIENE

The size and surface properties of the croquettes encourage pronounced chewing. This causes a positive rubbing action which cleans the tooth surface.

ENHANCED ENERGY TRANSFER

The increased fat content provides the optimum amount of energy in a concentrated and easy-to-digest form, especially for dogs with special requirements.

OPTIMAL PROTEIN SUPPLY

High quality and easy to digest proteins (e.g. from poultry) support the body with aminoacids which are essential for muscle development.

DISTINCT SHINY COAT

High-quality proteins and yeast promote a shiny coat and smooth skin.

PUPPY LAMB & RICE

- 🐾 0 - 12 MONTHS
- 🐾 FOR RAISING PUPPIES OF ALL BREEDS

COMPOSITION

Poultry protein (dried), rice (20 %), barley, maize, poultry fat, lamb protein (dried, 5 %), beet pulp (sugar removed), hydrolysed protein, maize protein, peas (dehydrated), yeast (dehydrated), salmon oil, sodium chloride, potassium chloride.

ANALYTICAL CONSTITUENTS

Protein	26.00 %
Fat content	14.00 %
Crude fibre	2.00 %
Crude ash	5.70 %
Phosphorus	0.90 %
Calcium	1.20 %

ADDITIVES: NUTRITIONAL ADDITIVES/KG

Vitamin A	13,000 I. U.
Vitamin D3	1,300 I. U.
Vitamin E	170 mg

TRACE ELEMENTS PER KG

Zinc (as zinc oxide)	70 mg
Copper (as cupric-sulphate, pentahydrate)	10 mg
Iodine (as calcium iodate, anhydrous)	2 mg
Selenium (as sodium selenite)	0.2 mg

🐾 AVAILABLE IN THE FOLLOWING PACKAGING SIZE: 20 KG

ADULT

- 🐾 FROM THE 1ST YEAR ON
- 🐾 FOR ADULT DOGS OF ALL BREEDS

COMPOSITION

Meat meal with poultry protein (dried), wheat, barley, wheat flour, maize, animal fat, wheat middlings, beet pulp (sugar removed), fish meal, yeast (dehydrated, 0.5 %), sodium chloride, hydrolysed protein, rice, potassium chloride.

ANALYTICAL CONSTITUENTS

Protein	23.00 %
Fat content	10.00 %
Crude fibre	2.50 %
Crude ash	6.40 %
Phosphorus	1.05 %
Calcium	1.35 %

ADDITIVES: NUTRITIONAL ADDITIVES/KG

Vitamin A	12,000 I. U.
Vitamin D3	1,200 I. U.
Vitamin E	70 mg

TRACE ELEMENTS PER KG

Zinc (as zinc oxide)	150 mg
Copper (as cupric-sulphate, pentahydrate)	10 mg
Iodine (as calcium iodate, anhydrous)	2 mg
Selenium (as sodium selenite)	0.2 mg

🐾 AVAILABLE IN THE FOLLOWING PACKAGING SIZE: 20 KG

ADULT LAMB & RICE

- 🐾 FROM THE 1ST YEAR ON
- 🐾 FOR SENSITIVE ADULT DOGS OF ALL BREEDS

COMPOSITION

Poultry protein (dried), barley, wheat, wheat flour, wheat middlings, poultry fat, maize, lamb protein (dried, 4 %), rice (4 %), fish meal, yeast (dehydrated), peas (dehydrated), hydrolysed protein, calcium carbonate, sodium chloride, potassium chloride.

ANALYTICAL CONSTITUENTS

Protein	24.00 %
Fat content	10.00 %
Crude fibre	2.50 %
Crude ash	6.00 %
Phosphorus	0.90 %
Calcium	1.30 %

ADDITIVES: NUTRITIONAL ADDITIVES/KG

Vitamin A	12,000 I. U.
Vitamin D3	1,200 I. U.
Vitamin E	70 mg

TRACE ELEMENTS PER KG

Zinc (as zinc oxide)	70 mg
Copper (as cupric-sulphate, pentahydrate)	10 mg
